## CERTIFICATE OF ANALYSIS

### Mycophenolate Mofetil EP Impurity D

#### Identification

|                   |                                                                                                                    |
|-------------------|--------------------------------------------------------------------------------------------------------------------|
| Product Name      | : Mycophenolate Mofetil EP Impurity D                                                                              |
| Chemical Name     | : 2-(Morpholin-4-yl)ethyl (4E)-6-(4,6-dimethoxy-7-methyl-3-oxo-1,3-dihydroisobenzofuran-5-yl)-4-methylhex-4-enoate |
| CAS No.           | : 1322681-37-7                                                                                                     |
| Molecular Formula | : C <sub>24</sub> H <sub>33</sub> NO <sub>7</sub>                                                                  |
| Molecular Weight  | : 447.5                                                                                                            |
| Valid from        | : 24-Jan-2020                                                                                                      |
| Valid Till        | : 23-Jan-2023                                                                                                      |
| Structure         | :                                                                                                                  |

#### Analytical Information

|                       |                                   |
|-----------------------|-----------------------------------|
| Appearance of Product | : Light Brown Thick Oil           |
| Solubility            | : ACN: H <sub>2</sub> O (8: 2)    |
| Long Term Storage     | : 2° - 8° C for long term storage |
| HPLC Purity           | : >95%                            |
